

How to edit PWLS All-American Application PDF Form

If you don't already have the **free** download of Adobe Acrobat Reader DC version 2018.011.20063 or newer on your computer, then download the file from the internet and install.

Open the applicable PWLS Application PDF file in Adobe Acrobat Reader DC, then click on "Comment" shown at the right of the application window, outlined in red box, in Figure 1 below. A new menu ribbon will appear near the top with comment features as shown in Figure 2 below. Click on the "T", outlined in red box, in the new menu ribbon and then place your cursor (aka mouse pointer) at the location where you want to enter text and start typing. Hope this works for you.
