

North Region Determination of Teams Eligible for Knothole Rec World Series

This tournament is for Rec teams only with the best Rec team in each Region being invited to the tournament. This takes place July 13th.

Teams will be asked on the first of June to commit to playing in the Rec World Series if they are eligible. To determine who gets the invite:

1. If there is only one Rec league in an age group:
The winner of that Rec league gets the invite to the Rec World Series. If they decline, the 2nd place team would get the invite, etc.
2. If there is more than one Rec League in an age group:
If there are two leagues, we would arrange to have them play each other with the winner getting the invite.
For three or more leagues, the invite goes to the 1st place team that advances the furthest in the North Region "North" Tournament.
If there is only one North Region post-season tournament in any given age group, then the 1st place Rec team advancing furthest in that tournament would get the invite.
If none of the regular season 1st place Rec teams play in the North Region post-season tournament, then they would not be eligible for the Knothole Rec World Series.
3. For a combined league (only 1 league for the age group and it includes both Rec and Athletic teams):
The invite would go to the best team that is NOT eligible for the Knothole World Series.
