

Granite Bay High School Marching Band & Color Guard and Touchdown Club Joining Forces to Put on a Fundraiser for the Ages

I know how fatigued many of us parents and community members get when we are asked to buy a ticket or make a donation to a school-related fundraiser. These events are all important given the lack of proper funding for public education. However, many different events can lead to volunteer and general community fatigue. So, for the first time ever the band and football program are joining forces to put on the granddaddy of fundraisers. The title sponsors for this gala event are J & S Asphalt and Capitol Cellars. Stay tuned for more details.

If you attended the Emerald Brigade Support Organization's Wines Around the Bay event either of the past two years, you were treated to an amazing evening of fine wines, local craft beers and food at the home of Steve and Renee Nash. The 2017 event, to be held August 26, will also be the fall fundraiser for the Touchdown Club, meaning parents, community residents and businesses can support over 300 talented and hard-working high school students at a single event! Enjoy great live music, sample foods from local restaurants and once again enjoy great wine and beer. Confirmed participants include Cibo 7, Paul Martin's, Capitol Cellars, Silver Oak, Moniz Family Wines, House of Oliver and Out of Bounds Brewing Company. More will be announced throughout the summer.

Tickets will be strictly limited and are expected to sell out quickly. Individual ticket prices are \$75 per person and \$50 for alumni parents (their youngest child has graduated from high school and participated in either the band or football program for at least two years). Tickets will be available for sale through both the Touchdown Club and Emerald Brigade Support Organization's website within the next 10 days. Check back regularly to see when they are available for sale. Given the popularity of the event, each purchased is limited to no more than 10 tickets.

Stay tuned for more details. If you have questions, please email Renee Nash at reneecnash@gmail.com or Deborah Newman at deborah.a.newman@intel.com
