Weston Gridiron Club MISSION STATEMENT

The Weston Gridiron Club is committed to the philosophy of "Education Through Athletics". We believe athletics serve as an extension of the overall educational mission. Organized athletics helps to foster an enthusiastic sense of shared allegiance among all parts of our school system and community. We believe WHS Football provides an opportunity for our students both to understand the rewards that come from dedication to a larger purpose and to develop their personal, physical, and intellectual skills. We support our WHS football student-athletes in their desire for excellence, respect of peers, fair play, teamwork, leadership, perseverance, and integrity.
